

Translational Genomics and Precision Medicine Trainee Symposium

The University of Texas MD Anderson Cancer, Houston, Texas
Thursday, August 31, 2023

The University of Texas MD Anderson Cancer Center Translational Genomics and Precision Medicine Approaches in Cancer training program is seeking applicants for its annual trainee symposium, which recognizes **outstanding Ph.D. students** in their final year and **early stage postdoctoral fellows** (within two years of their Ph.D.). The symposium is intended to introduce exceptional early-career scientists to research programs at MD Anderson and to recruit them to our NCI-funded T32.

Interested applicants should submit the following materials by July 15, 2023:

- Curriculum vitae
- Description of your current research project (1 page)
- Recommendation letter from their Ph.D. advisor
- U.S. citizenship or legal permanent residence is not required

Application materials should be combined into a single PDF file and submitted via email. Please send your applications and inquiries to Martha Burns at mlburns1@mdanderson.org. Additional information about our training program is found on [our website](#).

The top 4 applicants will receive an honorarium and be invited to present their research during at our symposium. Travel expenses and accommodations for the visit to Houston will be covered.
